Cresmarkets was idealized and raised by the Cres investment group; A banking and financial organization based in the United Kingdom, with extensive knowledge and experience in the areas of banking, forex trading, real estate, physical assets and titles, etc. It is an investment group legally registered and listed in the United Kingdom and also licensed by the National Securities and Exchange Commission of the USA.

Cresmarkets was incorporated by the SEC in 2016, began to operate locally in 2018 and became public and international in 2020

WHAT DO WE DO

our philosophy

Cresmarkets is a unique project, destined to have an impact in the coming years. Our singularity runs from our corporate culture based on decades in the very specific space of investment, trade and financial services. We are best positioned to make an impact and execute our best efforts.

Our goal is to provide financial solutions for individuals, families and organizations around the world, taking full advantage of blockchain technology, currency trading, cryptocurrency and other less volatile markets and ecosystems.

We have the best human resources and necessary materials to carry out this enormous task with the best standards and heights. Our combination of results from various markets, whether you fly or not, contributed a lot to guarantee a certain level of consistency with the results of our businesses. or volatile

Markets such as Forex, cryptocurrency, and blockchain, with a combined daily turnover of more than \$1 billion, are set to become increasingly lucrative and dynamic. We work to produce the best results possible in these sectors.

our mission

For everyone to see the possibility of living a life without divisions.

our vision

Raising people economically that is likely to contribute positively to society.

our objectives

To create a successful investment company where everyone is a winner.

Cresmarkets is based on many lucrative assets, such as Blockchain technology, forex and cryptocurrency trading, banks, pensions and Stocks. These ecosystems consist of volatile assets and non-flying markets. No meanwhile, the five main assets of cresmarkets include the assets listed below

**OUR
ECOSYSTEM**

- **asset and investment management**
- **cryptocurrency trading**
- **pensions**
- **forex trading**
- **cryptocurrency mining**

PENSIONS

CresMarkets offers the main products and benefits in fiscal efficiency, accumulation of liquidity, duration to which the individual or group can always have access after the work day

The pension funds come from investments.

Accumulation in any two plans at this time
The request of the investor can be withdrawn at any time, but it is recommended to keep it for later years of work, so that the investor can enjoy a happy living of a well financed life.

FOREX TRADING

The exchange market is a global decentralized or balcony market for currency trading.

It includes all prospects for the purchase, sale and exchange of coins at modern or pre-determined prices. With more than 12 years of experience in this area, we employ more than 50 negotiation specialists to execute negotiations and produce decent daily results.

Covers 18% of our ecosystem

FUND INVESTMENT MANAGEMENT

Our financial services companies provide financial services to individuals and companies. This section of our ecosystem is made up of a class of financial companies, including banks, investment houses, creditors, finance companies, real estate agents and insurance companies.

Our financial services companies provide financial services to individuals and companies. This section of our ecosystem is made up of a class of financial companies, including banks, investment houses, creditors, finance companies, real estate agents and insurance companies.

CRYPTOCURRENCY MINING

The term cryptocurrency mining means earning cryptocurrency by solving cryptographic equations through the use of smart computers. It involves scanning blocks of data and adding transaction records to a public ledger known as a Blockchain.

Our blockchain technology project is fully focused on building an amazing drilling and mining system that can make a decent impact on the market. We currently have a collectively supported mining system that can contribute approximately 12% of our ecosystem. We expect that number to grow over time.
